

- **Maximum all out race performance**
- **Durable slippery finish, still firm and air tight after repeated flogging.**
- **Very low stretch, but flexible in choppy water.**
- **Very strong tear strength for toughest conditions and highest loads.**

FABRIC PROPERTIES

- Unique low stretch coating formula also provides maximum durability. There is no sacrifice in the length of life from normal coated fabrics, in fact its durability is increased!
- Excellent tear strength resists snags and keeps punctures from expanding.
- Slippery coating speeds up Asymmetric handling, launchers sets and take-downs.
- Special Coating makes Sportmax more water resistant to resist weight gain when sail is wet.

WIDTH	FABRIC	FIBER
60" / 1.5m	Sportmax 33	Nylon
60" / 1.5m	Sportmax 36	Nylon
60" / 1.5m	Sportmax 40	Nylon
60" / 1.5m	Sportmax 43	Nylon

All styles are named with actual weight in grams / square meter.
