

## Leading Offshore & Voyage Sailcloth

Challenge Fastnet is the most durable offshore cruising style available. Fastnet is the 2018 upgrade from Challenge’s successful High Mass Fiber Weaves product line. The result of now 15 years of development, Fastnet combines all of the technology and lessons learned from the past six Clipper Around the World Races. Unlike a professional race, Clipper Around the World is crewed by ambitious amateurs. The sails must perform and last for over 60,000 miles, without professional maintenance crews or paid sailors. Challenge Sailcloth has supplied Clipper for two decades, and is excited to launch Fastnet to allow sailors who need bulletproof durability and UV resistance!

Fastnet achieves the high level of durability and UV resistance by using massive high tenacity warp fibers. The low aspect constructions and High Mass Fiber Technology are the most efficient and cost effective way of extending a sail life. To understand more about our UV resistance philosophy, please visit [www.challengesailcloth.com/uvr](http://www.challengesailcloth.com/uvr).

Fabric ID	Description	Yarn Denier		Fabric Width	
		Warp	Fill	in	cm
<b>D6.68</b>	6.68 Fastnet	250	400	54	137
<b>D7.38</b>	7.38 Fastnet	300	500	54	137
<b>D7.88</b>	7.88 Fastnet	500	650	54	137
<b>D8.88</b>	8.88 Fastnet	500	750	54	137
<b>D9.88</b>	9.88 Fastnet	500	840	54	137
<b>D10.88</b>	10.88 Fastnet	500	1000	54	137
<b>D11.88</b>	11.88 Fastnet	500	1300	54	137
